مقایسه مندلی با دیگر نرم افزارهای مدیریت منابع

Feedback

دلایل استفاده

- سازماندهی منابع و استنادات
- ایجاد کتابشناسی با فرمت استاندارد
- ایجاد پایگاه استنادی شخصی برای مقالات در موضوعات مختلف
- استفاده از ارجاعات و کتابشناسی گوناگون به راحتی با استفاده از نرم افزار مندلی
- اشتراک پایگاه استنادات و مقالات با دیگران
- ایجاد گروه کاری با همکاران و افرادی با تخصص مشترک

- رایگان بودن نرم افزار
- آسانی استفاده
- استفاده پایگاه های بسیاری مانند محصولات الزویر از نرم افزار مندلی
- تخصیص فضای رایگان با حجم ۲ گیگابایت

فرمت مندلی

- مندلی دسکتاپ
- مندلی آنلاین

It's time to change the way we do research.

Mendeley is a free **reference manager** and **academic social network** that can help you organize your research, collaborate with others online, and discover the latest research.

- Automatically **generate bibliographies**
- Collaborate easily with other researchers online
- Easily import **papers** from other research software
- Find relevant **papers** based on what you're reading
- Access your papers from **anywhere online**
- Read papers on the go, with our new **iPhone app**
- View more features...

What is Mendeley?

Based in London, Mendeley are 30+ researchers, graduates and software developers from...

...backed by co-founders and former executives of:

Supported by:

Mendeley is free academic software (Win, Mac & Linux) to manage, share, read, annotate and cite your research papers...

The screenshot shows the Mendeley web interface. At the top, there's a navigation bar with 'Dashboard', 'Library' (which is highlighted), 'Profile', 'People', and 'Statistics'. The main area is titled 'My Library' and shows a list of documents. A detailed view of a document is shown on the right, similar to the desktop version, with fields for title, abstract, journal information, and citation details. Below the main list, there are sections for 'Filters', 'Tags', and 'Shared Collections'.

...and a research network to manage your papers online, discover research trends and statistics, and to connect to like-minded researchers.

haemopoietic-stem-cell transplantation. METHODS: Patients with steroid-resistant, severe, acute GVHD were treated with mesenchymal stem cells, derived with the European Group for Blood and Marrow Transplantation ex-vivo expansion procedure, in a multicentre, phase II experimental study. We recorded response, transplantation-related deaths, and other adverse events for up to 60 months' follow-up from infusion of the cells. FINDINGS: Between October, 2001, and January, 2007, 55 patients were treated. The

Journal: *J Infect Dis*

Year: 2008
Volume: 197 Suppl 1
Issue:
Pages: S14-8 ST - Preparing for avian influenz...

Abstract:

As a low-likelihood, high-consequence event, the possibility of an influenza pandemic poses a difficult challenge to policymakers. Drawing from the ill-fated swine influenza immunization program of 1976, this article outlines 7 lessons that apply to preparations for avian influenza: (1) beware of overconfidence in models drawn from meager evidence, (2) invest in a balanced portfolio of research and contemporary preparedness, (3) clarify operational responsibilities in the federal government, (4) refrain from overstatement of objectives and misrepresentation of risk, (5) strengthen local capacity for implementation, (6) communicate strategically, and (7) lay the basis for program review.

This screenshot shows the Mendeley Desktop application window. The menu bar includes File, Edit, View, Tools, and Help. The toolbar contains icons for adding documents, deleting documents, removing from collection, creating folder, removing folder, e-mailing documents, and syncing library. A search bar at the top right says 'Type here to search'. The main interface shows a list of 'All Documents' with columns for star rating, author, and title. One document is selected: 'Preparing for avian influenza: lessons from the "swine flu affair"' by H. Fineberg, published in the Journal of Infectious Diseases in 2008, Volume 197 Suppl 1. The abstract of the document is displayed at the bottom.

Racial/Ethnic Disparities in Obesity Among US-born and Foreign-born Adults by Sex and Education.

Authors: D. Barrington, M. Baquero, L. Borrell et al.

 View research catalog entry for this paperJournal: *Obesity (Silver Spring)*

Year: 2009

Volume:

Issue:

Pages:

Reference details

Abstract:

This study examines sex and education variations in obesity among US- and foreign-born whites, blacks, and Hispanics utilizing 1997-2005 data from the National Health Interview Survey on 267,585 adults aged ≥ 18 years. After adjusting for various demographic, health, and socioeconomic factors via logistic regression, foreign-born black men had the lowest odds for obesity relative to US-born white men. The largest racial/ethnic disparity in obesity was between US-born black and white women. High educational attainment diminished the US-born black-white and

Mendeley combines:

This screenshot shows the Mendeley Desktop application. On the left, the 'LIBRARY' panel displays a list of publications, filters, and search options. In the center, there's a 'Tags and notes' section with a note about 'Emotion; Hedonic consumption'. Below it is a 'References' section listing various academic papers from journals like the Journal of Marketing and the Journal of Consumer Psychology.

This screenshot shows the Mendeley Web interface. It features a 'RESEARCH PROFILES' header and a 'Your readers' section with a graph showing growth in readership over time. The graph highlights a peak of 28,943 readers between April 2008 and May 2008. Below the graph, a 'Most frequent new tags' section lists terms such as 'Sociographics', 'Psychosocial', and 'Intelligence Testing'.

This screenshot provides a detailed view of a single reference entry in Mendeley Desktop. It includes the author, title, journal, volume, pages, and abstract of the paper.

This screenshot shows a detailed view of a reference entry on the Mendeley Web platform. It includes the same bibliographic information as the desktop version, along with a 'CITATION' section and a 'REFERENCES' section.
